SKILLS

- **Languages:** JavaScript, SQL
- **Frontend:** HTML5, CSS3, Tailwind CSS, React.js, Redux Toolkit
- **Backend:** Node.js, Express.js
- **Database:** MySQL, MongoDB, Mongoose
- **Tools & Platforms:** Git, GitHub, Postman, Linux
- **Currently Strengthening:** Next.js, TypeScript
- **Core Concepts & Technical Skills:** RESTful APIs, CRUD Operations, JWT Authentication, API Integration, OOP, Database Design, Responsive Web Design, Git Version Control, Cloud Deployment, Real-time Applications, Secure Authentication, Performance Optimization, CI/CD Pipelines, Debugging, Problem Solving

PROFILE

Entry-level Full Stack Developer specializing in JavaScript, Node.js, and Express. Built multiple web applications with a focus on REST APIs, data handling, and responsive UI development. Currently strengthening backend fundamentals and system design.

PROJECTS

Eventify - Full Stack Event Management Application

[Live Demo](#) | [GitHub](#)

- Built a full-stack event management platform using Node.js, Express.js, JWT authentication, and MySQL
- Developed REST APIs for user authentication and event management workflows
- Structured the backend using routes, controllers, and middleware
- Integrated MySQL database for managing users, events, and booking data

Second Brain Pro - Note-Taking & Productivity App

[Live Demo](#) | [GitHub](#)

- Built an AI-powered productivity and note management application using HTML, CSS, and JavaScript
- Integrated real AI API functionality for intelligent note summarization and content assistance
- Implemented dashboard, tagging system, Pomodoro timer, and focus-oriented productivity tools
- Designed responsive UI with LocalStorage persistence and dark/light theme support

Lead Management System

[Live Demo](#) | [GitHub](#)

- Built a full-stack CRM-style lead management application using React.js, Node.js, Express.js, and PostgreSQL
- Implemented complete CRUD operations with RESTful API integration and responsive UI design
- Developed backend architecture using routes, controllers, and PostgreSQL database connectivity
- Deployed frontend, backend, and cloud database using Vercel, Render, and Neon PostgreSQL

TRAINING & CERTIFICATIONS

Full Stack Development Training – Digital Heroes
