- Hindi (Fluent)

PROFILE

Entry-level Full Stack Developer specializing in JavaScript, Node.js, and Express. Built multiple web applications with a focus on REST APIs, data handling, and responsive UI development. Currently strengthening backend fundamentals and system design.

PROJECTS

Eventify - Full Stack Event Management Application

[Live Demo](#) | [GitHub](#)

- Built a full-stack event management platform using Node.js, Express, and MySQL
- Developed REST APIs for user authentication and event handling
- Structured backend using routes and controllers
- Integrated database for storing user and event data

Second Brain Pro - Note-Taking & Productivity App

[Live Demo](#) | [GitHub](#)

- Built a privacy-focused note-taking app using HTML, CSS, and JavaScript
- Implemented dashboard, tagging system, and focus mode with Pomodoro timer
- Used LocalStorage for client-side data persistence
- Designed responsive UI with dark/light theme support

QuickCart - Coffee Store (Next.js)

[Live Demo](#) | [GitHub](#)

- Built a responsive UI using Next.js
- Implemented routing and reusable components
- Developed as part of a guided learning program
